Welcome

Dear Students,

Welcome to the second year medicine. As you have already started in the Faculty curriculum (System- Based Curriculum), this year you are in Phase I of the program.

Phase I : Premedical Year (First Year)

Phase II : Second and Third Years

Phase III : Fourth, Fifth and Sixth Years

The aim of this phase is to lay down a solid foundation for the subsequent full-time clinical study in stage II and III of the MBBS program. This include knowledge, skill and attitudes, particularly attitudes towards the learning process. The curriculum philosophy in stage I is enforcing the development of a mixture of teaching approaches including Lectures, Practicals, also small group teaching. It is also stressing on the idea of "Student Self Directed Learning".

The department has the honor to introduce this study guide to you hoping that it may be helpful in making you oriented with the aims, objectives, contents of our courses, and through it, you will find the answers of the frequently asked questions.

All the Best

Department Chairman
